TECHNICAL SKILLS

- Languages: PHP, JavaScript, TypeScript, HTML5, CSS3
- Web: Laravel, React, Bootstrap, Tailwind CSS, Chart.js
- Mobile: React Native, Expo, Expo Router
- Backend and database: REST APIs, authentication, MVC architecture, request validation, MySQL
- Tools and integrations: Git, Axios, TanStack Query, Zustand, React Hook Form, Firebase, Expo Notifications, Zebra barcode and label printing

PROFESSIONAL SUMMARY

Full Stack Web and Mobile Developer with 2 years of experience building applications with PHP, Laravel, MySQL, JavaScript, and React Native (Expo). Experienced in REST APIs, mobile and backend integration, booking and payment workflows, admin dashboards, and reporting systems. Project experience spans healthcare booking, retail operations, education, and road infrastructure monitoring.

WORK EXPERIENCE

Web Developer – Education Valley Company

- Develop and maintain web applications using PHP (Laravel) and MySQL, supporting internal business systems and student application workflows.
- Build and enhance backend functionality, including data processing, validation, and application management features.
- Develop and improve administrative dashboards to streamline application management and internal operations.
- Troubleshoot and resolve frontend and backend issues, ensuring application reliability and functionality.
- Collaborate with team members to implement new features, maintain existing systems, and improve overall application performance.

Freelance Full Stack Developer

- Build web and mobile applications for a nurse rental platform (QueenZabuHein) with booking, scheduling, and admin system using Laravel
- Built POS reporting system with daily reports and Zebra barcode/label printing using React Native (Expo) and Laravel
- Created backend APIs and dynamic progress charts for Road Chart App using Laravel and Chart.js
- Designed and implemented RESTful APIs for multiple projects

LANGUAGE

- English (Working Proficiency)
- Burmese (Native)

EDUCATION

- University of Computer Studies, Mandalay (First Year)
- NCC Level 4 & 5 Diploma in Computing - KBTC School of IT

PROJECT HIGHLIGHTS

QueenZabuHein Nurse Booking Platform

- Technologies: *Laravel, PHP, MySQL, JavaScript, Bootstrap, React Native, Expo, Expo Router, TypeScript, Firebase, Expo Notifications*
- Built a connected Laravel web platform and Expo React Native mobile app for patients, nurses, and administrators.
- Implemented nurse registration and document uploads, admin approval, nurse discovery, booking and scheduling, payment workflows, user profiles, and push notifications.
- Connected mobile booking flows to Laravel APIs so patients can book nurses, nurses can manage assignments, and administrators can review nurses, bookings, and payments.

POS and Reporting System | US Sushi Shop

- Technologies: *PHP, Laravel, MySQL, React Native (Expo), Zebra Barcode & Label Printers*
- Designed and developed a full-stack POS and business management system to streamline sales operations, barcode workflows, and business reporting.
- Developed Laravel backend services and REST APIs to manage sales transactions, product data, and business operations.
- Built a React Native mobile application integrated with the Laravel backend to support daily operational workflows.
- Implemented barcode scanning and Zebra printer integration for barcode and product label generation.
- Developed an administrative dashboard for centralized sales management, reporting, and business performance monitoring.
- Integrated application components to improve operational efficiency and provide management with access to business data.

Road Management System | Government Project

- Technologies: *PHP, Laravel, MySQL, Bootstrap, Chart.js*
- Developed road infrastructure monitoring features and administrative interfaces for managing infrastructure records.
- Built reporting dashboards with Chart.js visualizations, providing structured views for reviewing infrastructure data and supporting monitoring workflows.
- Confidential client project. Screenshots, source code, and sensitive details are not publicly available; further information is subject to client permission.

CERTIFICATIONS

- PHP & Laravel Certificate – Classic Training Center
- English 4 Skills (Elementary) – SFUx
- NCC Education Level 4 & 5 Diploma in Computing (with Business Management)
